

Customer Testimonial:

“The ARC of Rock Island County in IL has been using our three AMS-150 shredders for over eleven years. We do document destruction at our Opportunity Center site as one of our recycling jobs. We have been very pleased with the fact that they shred a large quantity of paper at one time, are very easy for the individuals to use and are quite low maintenance.

We were so pleased with our first one that we asked Ameri-Shred if the stand that the shredder is on could be adapted for wheelchair accessibility. They very graciously accommodated our need and now all of the individuals we support have an opportunity to work.”
